DETAILED ACTION

Response to Arguments

1. Applicant's arguments see pages 7-8, filed 09/11/2006, with respect to claims 1-3,5,6,8,9 and 11-14 have been fully considered and are persuasive.

Allowable Subject Matter

2. Claims 1-3,5,6,8,9 and 11-14 are allowed.

1. The following is a statement of reasons for the indication of allowable subject matter: Regarding claims 1 and 8, prior art references fail to teach of sending a prepared e-mail in XML format from a center machine to a target machine, in which the target machine receives the e-mail in XML format, reads the data and then sends an e-mail in XML format back to the center machine. The center machine then receives and stores the e-mail in XML format and then analyzes the stored e-mail using analysis software stored in advance.

2. Regarding claim 6 and 9, prior art references fail to teach of sending a prepared e-mail in XML format from a center machine to an image forming apparatus, in which the image forming apparatus receives the e-mail in XML format, analyzes the e-mail in XML format, writes the data in a non-volatile memory based on the analysis and then sends an ACK e-mail in XML format back to the center machine. The center machine

then receives and stores the ACK e-mail in XML format and then analyzes the stored e-mail using analysis software stored in advance.

3. It follows that dependent claims 2,3 and 11-14, are inherently allowable for depending on an allowable base claim.
